

Funding available for Suffolk residents for Central Heating Systems!

Up to 100% funding is available to install first time central heating systems in Suffolk residents' homes. This funding from National Grid's Warm Homes Fund has been secured by Suffolk County Council and the district and borough councils to help more than 500 households in Suffolk over the next three years.

In Suffolk there are still a large number of houses that do not have a central heating system with a boiler and radiators. Cold homes are not just uncomfortable to live in, they can also have a negative effect on health.

Residents are eligible if they own their property or are privately renting (i.e. not a council house or housing association property) and must not have an existing central heating system (a boiler and radiators). Eligibility criteria apply and may be linked to income. For more information see www.greensuffolk.org/whf
