

## Mayors Report

Dear All.

This is my first Mayors report and it would appear the event calendar is just swinging into action.

With the Town Reeve we attended a very jolly morning with a group of Throckmortons, who had travelled from the States to trace their ancestral history and roots, not only here in Bungay, but across the country.

There were 25 visitors in total from all four corners of the states and a few from the great plans in Ohio. Despite the rain, that unfortunately arrived at the same time their coach pulled up, nothing could dampen their spirit or enthusiasm for the town and they left with a great deal of history and information excellently compiled by Chris Reeve and Trevor French of Bungay Museum.

Today also brought about my first civic event with the Mayor Making and civic service at Eye, which I attended with Alice, this was, as always, well attended with the High Sheriff, Judith Shallow present, along with other county civic leaders.

During this next year there will be many events put on by many organisations within the town and I ask you all for your help and support for these events to make them a success.

Olly
